All primary care practitioners wishing to provide NHS primary care services are required to be on the Performers List For England.

This is a quick guide to the application process for joining the Dental Performers List For England.

During the application process you will need to upload scans or photographs of the following supporting documents:

*It is possible to submit your application without your DBS and indemnity/insurance certificates, and upload these at a later date via the Performers List home page, but your application cannot be considered by NHS England until they have been uploaded.

If the document provided is not in English, a translation that has been issued by a bonafide organisation and signed by an official translator is required.

Important information regarding DBS certificates

It is important to apply for your enhanced DBS certificate early, and in advance of making your application to join the Performers List. **It can take up to eight weeks to obtain an enhanced DBS certificate, and an application cannot be progressed without one.**

Applicants are advised to register for the [DBS online update service](#) as soon as you receive your DBS certificate. If you do not register for the service within 28 days of receipt of the certificate it will become invalid and you will need to apply for a new certificate.

Your application cannot be approved without an enhanced DBS certificate that is registered with the online update service.

Referees

You are required to enter contact details for two referees who have agreed to provide clinical references relating to two recent or current posts. If you provide details for a referee based outside of the UK you will also need to include current professional registration.
