

# Performers List for England Application Process - A Quick Guide for GPs

All primary care practitioners wishing to provide NHS primary care services are required to be on the Performers Lists for England. This is a quick guide to the application process for joining the Medical Performers List for England.

Please complete and submit your application form with mandatory supporting documents as soon as possible, to help prevent any delays in starting your role. If there are any issues with the pre-admission checks, the application process will take longer to complete.

## Before you start your application

During the application process you will need to upload scans or photographs of the following supporting documents. These need to be submitted with:

- Your CV - this needs to be up to date, with full employment and education details, you should also account for any gaps in employment of more than 14 days
- Photo ID - Copy of your current passport, or driving licence photocard (UK, Isle of Man, Channel Islands or EU). Other acceptable forms of ID can be found on the Disclosure and Barring Service (DBS) [website](#)
- Enhanced DBS Certificate (or DBS application reference number). Please upload both pages and ensure that all information is visible\*
- Certificate of graduation or postgraduate training
- CPR (valid for 12 months unless certificate states otherwise)
- Copy of your most recent appraisal/outcome statement (if you have had an appraisal)

Please note: If you have lived outside of the UK (in the last 5 years), studied or trained outside of the UK or Republic of Ireland, you will be required to submit a police check. Documents and certificates not provided in the English language must include an official translation.

*\*It is possible to submit your application without your indemnity/insurance certificate and upload this at a later date via the Performers List home page, but your application cannot be considered by NHS England until it has been uploaded.*

## Important information regarding DBS certificates

It is important to apply for your enhanced DBS certificate early, and in advance of making your application to join the Performers List. **It can take up to eight weeks to obtain an enhanced DBS certificate, and an application cannot be progressed without one.**

Applicants are strongly advised to register for the DBS online update service as soon as you receive your DBS certificate. **If you do not register for the service within 28 days of receipt of the certificate it will become invalid and you will need to apply for a new certificate.**

**Your application cannot be approved without an enhanced DBS certificate that is registered with the online update service.**

## Referees

You are required to enter contact details for two referees who have agreed to provide clinical references relating to two recent or current posts. If you provide details for a referee based outside of the UK, you will also need to include proof of their registration.
